York, North Yorkshire | T: 07714 415354

Motivated final year computer science student with a passion for game development. Ready and willing to learn new languages and technologies quickly, with existing industry experience.

Experience

Engineering Intern | Dream Reality Interactive, Remote Jun 2026 – Present

- Working part-time with the team at Dream Reality Interactive to create a web-based nail painting game.
- Developing in Unity and C#, with some direction, but largely independently and with creative freedom.
- Aiming to release and monetise the game on a browser-based gaming platform.

Software Engineering Intern | Anaplan, York Jul 2025 – Aug 2026

- Worked independently and collaboratively on tickets each sprint as part of a team.
- Wrote production quality code for backend and frontend codebases.
- Gave updates on progress and shared opinions and ideas during meetings.
- Communicated directly with product owners and designers to elicit requirements.
- Took ownership in team over specific features.
- Learnt to navigate and work in large, professional codebases.

Engineering Intern | Digital Eclipse Entertainment Partners, Emeryville, California Jun 2024 – Jul 2024

- Designed and programmed a level in Mighty Morphin Power Rangers: Rita's Rewind, working in C++ and Lua.
- Play-tested games, reporting any bugs and contributing opinion.
- Learnt from colleagues and attended meetings to develop understanding of game development.
- Assisted with localisation-related tasks.
- Acquired a basic understanding of Blender.

Engineering Intern | Fruity Systems Ltd, Remote Dec 2023 – Jan 2024

- Developed a small project, Chicken Tag, expanding working knowledge of Unity and C#.
- Attended meetings, learnt about the workflow of a games company.
- Learnt about more specific aspects of game development, relating to programming, audio, animation, and more.

Education

Bachelor of Engineering (Hons) in Computer Science | University of York 2023 – 2027

- First Year Average: 81%
- Second Year Average: 75%

Skills

Programming Languages: C#, C++, Python, Java, Kotlin, TypeScript
Technologies: Unity, Unreal Engine 5, MySQL, Git, Grafana
Languages: English (native), Japanese (N2 level in the Japanese Language Proficiency Test)

Certifications

- Microsoft Azure Fundamentals Certification Dec 2023
- Japanese Language Proficiency Test N2 Aug 2023
- A-Level Mathematics (A*), Computer Science (A*), French (A*) Aug 2022
- Extended Project Qualification (A*) Aug 2021
- Unity Essentials Pathway Jan 2021
- 12 GCSEs, Grades 7 – 9 Aug 2020
